INTRODUCTION

- Research is pivotal in advancing good practice.
- Important in pharmaceutical and biomedical sciences.
- The true value of any research is only realized when the results are subjected to peer review and then published in journals.
- Supports professional and career development.
- Supports applications for funding in research.
- Therefore a structured approach is vital and one must collect information accurately analyze and interpret data critically and present the data objectively.

Seminar on “Publish or Perish: The art of scientific writing”

A seminar on “Publish or Perish: The art of scientific writing” was conducted on 13th December 2021, under the ISTE Chapter, by Mr. S. P. Dewani, at 2.30 pm. Around 60 students from UG and PG course were present for the seminar. The students were made aware of the importance of publication in their career. Various writing tools were introduced to the students. Meaning of impact factor graded to the scientific journals was explained. The students were highlighted various steps to be followed for effective and flawless scientific publication. The students were also made aware of various citation tools required during the course of publication. A brief idea on various online citation tools was also provided to the students.
