Dear Principal Sir,

I am Swati Patil, I'm a Business Development Manager in PharmaEducare company. As per reference of Mr.Pravinkumar Bisen,

I want to introduce our company PharmaEducare, an ISO9001-2015 certified training company dedicated to ambitious life science professionals' personal development and progress.

PharmaEducare vision is to deliver quality education and training to life science students and industry peers worldwide. Our primary focus areas are Regulatory Affairs, Clinical Trials, Pharmacovigilance, Quality Management System (QMS) and Medical Devices.

Our ethos is to improve patient safety by creating skilled professionals in the life science industry with our Educational, Information-led, Value-added and Quality-oriented training courses. We promote the life science profession and inspire our peers to engage in our activities and our network. Our online and in-house courses and training materials follow GCP principles, industry code of conduct, and ethics to achieve the highest service standards.

We have an extensive network of trainers, professional, and SMEs from all over India and across the globe. These individuals are from highlighted regulated healthy authority agencies to leading pharmaceutical companies with up to 20 years of experience and specialize in delivering training.

We are reaching out to you to collaborate with your company so that you can be a part of our extended network. By joining our network, you will have skilled and trained graduates at your doorstep according to your company's needs, values, and vision. We believe that sustained and steady growth can be achieved by placing the right person at the right job with the appropriate skill set.

Similarly, we are interested in creating numerous opportunities for recent graduates who have completed training with us. We will give you a shortlisted and screened list of candidates for your company as per your needs and requirement, and there will be no charge for this service.

Please see attached brochure for our services.

Yours sincerely,

Swati Patil

Introduction to Pharmacovigilance

Course Overview:

- Pharmacovigilance (PV)—the detection, assessment, understanding and prevention of adverse effects or any other drug-related problems—is a dynamic and rapidly changing pharmaceutical industry area.
- This introductory course provides an overview of pharmacovigilance across the globe. It also helps to understand the regulatory requirements, recent trends in the market, and the best approach for communicating the safety profile.

Benefits of attending:

Upon completion of this course, participants would be able to:

- Understand the concept of pharmacovigilance and its role in drug warnings, recalls and drug labelling.
- Describe the operational activities within drug safety departments and drug safety reporting requirements.

Introduction to Quality Management System

Course Overview:

- This course will provide a basic understanding of QMS and how it helps manage a product or process's quality. This course will also help understand how documents are structured, processed and the responsibilities required for quality management. Another scope of this course is to understand the document lifecycle in the quality system.

Benefits of attending:

- Upon completion of this course, participants would be able to:
- Describe how government regulations and requirements are met to launch the product in the market worldwide.
- Understand how statistical data can be used to improve process efficiency with reduced quality issues.

Deepak Pardhi is presenting

Introduction to Medical Coding

Course Overview:

- Medical coding is transforming healthcare procedure, diagnosis, medical services, and equipment into universal medical alphanumeric codes. This course will provide an introductory foundation for the medical coding industry. The fundamentals of coding will be communicated by building upon the knowledge, principles and guidelines required to succeed in the medical coding field. Medical coders are in great demand in the USA, especially from India, as the youth of India are considered highly competitive. Medical coding professionals receive training in health informatics and comply with the core standards provided by the American Health Association.

Course Outcomes:

- Upon completing this course, participants would be able to use basics in medical terminology, anatomy, and physiology for medical coding projects. The participant can effectively work in the medical coding management and understand how medical law can comply with the ethical standards of the national health organizations.

Deepak Pardhi is presenting

Introduction to Clinical Data Management

Course Overview:

- Clinical Data Management (CDM) is a crucial stage in Clinical Research, which leads to the generation of high-quality, reliable, and statistically sound data from clinical and pharmaceutical trials.
- This course presents concepts and practical methods to support the planning, collection, storage, and dissemination of data in clinical research. Additionally, this course describes how to prepare a global clinical data strategy include the standardization of Case Record Form (CRF) Templates, Annotated CRFs, CRF Completion Guidelines, Data Lifecycle Plans, Data Validation Specifications and Therapeutic area / Phase specific information.

Benefits of attending:

- Upon completion of this course, participants would be able to use a clinical data management system or CDMS is a tool used in clinical research to manage the data of a clinical trial.
- Students will clearly understand various essential elements of clinical data management, theoretical knowledge on regulatory guidelines, CDM workflow, data management plan, different activities involving CRF designing, data entry, data collection, AE management, report creation and responsibilities of CDM personnel.

To,

The CEO,
PharmaEducare

Subject: Thanks letter

Dear Sir,

On behalf of Training and Placement Cell of Institute of Pharmaceutical Education and Research (IPER), Borgaon (Meghe), we are thankful to you for conducting online Webinar, as a resource person on "Career Options and Future Prospects in Pharma Field" on 12th June 2021 at 3.30 pm. I am thankful to you for accepting our invitation and enriching the students of the institute with your valuable thoughts and knowledge.

This webinar will be very much useful to the student and faculty members of the institute. We expect same type of co-operation for the promotion of professional education in future as well.

Thanking you.
