DIFFERENCE BETWEEN LAW & ETHICS

LAW	ETHICS
Rules of human conduct binding to all persons in a state or nation.	Rules by which a profession regulates actions and sets standard for all its members.
If law is broken, a violator may be subjected to punishment, fine or imprisonment.	If rules are broken, the professional body may subject the violator to lose professional privileges.
Standards of law.	Standards of conduct.
Law may prevent one from causing injury to other. But it cant force him to help his neighbor in hours of need.	Helping neighbors is the function of ethics.
Selling misbranded or adulterated drug is prevented by law.	Selling medicines at cheaper rate than that of the fellow pharmacist in his area is not ethical.
