## Report

Tree-planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purpose. It differs from the transplantation of larger trees in arboriculture, and from the lower cost but slower and less reliable distribution of tree seeds. Trees contribute to their environment over long periods of time by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education and Wardha organized “Tree Plantation” programme on 9th July 2017 in the college premises. It was attended by Dr. R. O. Ganjiwale, Principal; Dr. N. A. Karande, NSS Programme Coordinator; and 120 student volunteers planted the saplings.

## Report

Every man need the oxygen for their life and Trees are the foremost source of oxygen as well trees helps to reduce the level of CO<sub>2</sub>. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees has become one of the most important today's aspects. The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education and Wardha organized "Tree Plantation" programme on 16th July 2018 in the college premises. It was attended by Dr. R. O. Ganjiwale, Principal; Dr. N. A. Karande, NSS Programme Coordinator; and 120 student volunteers. Under the Guidance of Asst. Prof. Dr. N. A. Karande, NSS Program Coordinator, NSS volunteers planted the saplings. The students also placed bricks as barricades and each student took the responsibility to nourish and maintain the allocated plant. Eventually, the ground attained a glorious look. The committee decided to proceed with the same inspiration, enthusiasm and zeal to enhance the beauty of the college campus.

## Report

Trees greatly benefit the people living around them by having a positive impact on mental health and wellbeing, reducing stress and encouraging outdoor exercise. This is in addition to the benefits they will receive from an improved environmental quality and improved amenity which comes with planted areas.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education and Wardha organized “Tree Plantation” programme on 11th July 2019 in the college premises. It was attended by Dr. R. O. Ganjiwale, Principal; Dr. N. A. Karande, NSS Programme Coordinator; and 65 student volunteers. Under the Guidance of Asst. Prof. Dr. N. A. Karande, NSS Program Coordinator, NSS volunteers planted the saplings.

## Report

As if the logistical challenges of planting millions of trees were not enough, add into the mix a global public health crisis, unlike anything the world has seen in generations. The Coronavirus pandemic (COVID-19) has taken an immense toll on the lives and well-being of many and created unprecedented challenges to on-the-ground forestry and conservation efforts.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education and Wardha organized “Tree Plantation” programme on 12th July 2020 in the college premises. It was attended by Dr. R. O. Ganjiwale, Principal; Dr. N. A. Karande, NSS Programme Coordinator; and NSS student volunteers. Under the Guidance of Asst. Prof. Dr. N. A. Karande, NSS Program Coordinator, 110 student’s volunteers planted the saplings.

## Report

Trees beautify our surroundings, produce oxygen, absorb pollutants, sequester greenhouse gases, regulate temperature and prevent soil erosion, besides acting as wind barriers. They are grown for their aesthetic value in landscapes and or economic importance. The Indian tree flora diversity ranks 10th in the world and comprises of nearly 2000 species belonging to about 800 genera and 150 families of flowering plants, which includes majority of the cultivated and exotic species. With the increase in population, rapid expansion of area under food and commercial crops, deforestation, extension of urban area, establishment of industries in rural areas and other factors, there is considerable depletion of genetic wealth, many of them being in the verge of extinction.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education and Wardha organized “Tree Plantation” programme on 28th July 2021 in the college premises. It was attended by Dr. R. O. Ganjiwale, Principal; Dr. N. A. Karande, NSS Programme Coordinator; and NSS student volunteers. Under the Guidance of Asst. Prof. Dr. N. A. Karande, NSS Program Coordinator, 107 students participated in Tree Plantation.

## Webinar on Food Planet Health (2021-22)

  
(Dr. R. O. Ganjiwale)  
Principal  
Institute of Pharmaceutical Education & Research  
Borgaon (Meghe), Wardha

## Report

### FOOD-PLANET-HEALTH

Food systems have the potential to nurture human health and support environmental sustainability, however our current trajectories threaten both. The EAT–Lancet Commission addresses the need to feed a growing global population a healthy diet while also defining sustainable food systems that will minimise damage to our planet.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education Wardha organized Webinar on “Food-Planet-Health” in association with Vegan Outreach dated on 11.10.2021. The Vegan Outreach is an organization, initiated mission compassion 2021- a virtual tour to reach top University’s and Youth group of Nagpur and spread awareness about the impact of food on health. During this tour speaker Asha Gupta interacted with students about the health benefits of a plant based diet and how compassionate food choice care save the planet and animals. The 96 students participated in the program.
