IPER students spread awareness against use of plastic

■ District Correspondent
WARDHA, Mar 28

VIDARBHA Youth Welfare Society's Institute of Pharmaceutical Education And Research, Borgaon Meghe, Wardha, (IPER) in collaboration with Gram Panchayat Borgaon Meghe, Wardha, conducted plastic eradication rally through the NSS and Swachhata Abhiyan.

The rally was inaugurated by the hands of Sarpanch Santosh Selukar. Principal Dr Rajendra Ganjiwale and Dr Bhushan Sathe were present on the occasion. About 250 students of IPER participated in the rally.

Students tried to convey message to the community regarding hazardous effects of plastic on health of humans and animals and its adverse effects on the environment. Students prepared slogans and banners on 'No Use of plastic'.

Gram Panchayat adminstra-

<p>About Institute of Pharmaceutical Education and Research</p> <p><i>Institute of Pharmaceutical Education and Research is one of the pioneering pharmacy institutes in India, established in 1982 in Wardha, which is run by Vidarbha Youth Welfare Society, Amaravati.</i></p> <p><i>The institute is accredited twice by NBA and had received NAAC Grade A. The institute is permanently affiliated to RTM Nagpur University, Nagpur, and conducts PhD, M. Pharm, B. Pharm and D. Pharm courses. The institute is a recognized as Higher Learning Centre by RTM Nagpur University, Nagpur. IPER has been recognized by UGC under 2(f) and 12(b).</i></p> <p><i>Since its inception, the institute is experiencing remarkable growth qualitatively. With well-equipped laboratories, rich library, qualified and experienced staff and high academic standards the institute have become one of the premier institutes in central India.</i></p> <p><i>Institute of Pharmaceutical Education and Research has always been dedicated for providing quality education and maintaining standards pertinent to the current requirements of the profession. The Institute has been actively involved in Research and has several publications and patents to its credit. Besides academic interests, the Institute is also dedicated for overall development of students, which is reflected from their achievements in academic as well as co-curricular and extra-curricular activities.</i></p> <p><i>The Post-graduate students of the Institute are involved in current research areas, trying to level up with global industrial essentials and standards. The institute has undertaken various research projects from various Government organizations and Pharma Industries costing above 1.5 crore. We groom our students, not only in the field of discipline, but also broaden their mindsets and create positive attitude.</i></p> <p><i>Brand IPER has always been committed to quality, and as an extension in providing overall quality and value education, IPER has introduced Certificate course in Universal Human Values and Professional Ethics for its Students.</i></p>	<p>About Universal Human Values and Professional Ethics</p> <p><i>Human Values and Ethics define the quality of a person or an organization or society at large. Practitioners of values and ethics learn these lessons through self-initiated endeavors, through the life experience that is the greatest laboratory of learning, and through the educational institutions, those they attend. It is needless to emphasize that education is the most important pillar of a civilized and dignified society. The entire structure of society or nation depends on the strength of this pillar. If this pillar is strong, society would remain humane and would prosper. If this pillar develops some fractures, the society may enter into sub-human phase. Thus, there is a need to keep emphasizing the importance of human values in the form of "Shiksha-Sanskar" in educational institutions.</i></p> <p><i>Human values and ethics are not like motor skills, which once mastered remain with forever. They are not skills, they belong not even to the domain of mere knowledge, they in fact belong to the domain of subtler understanding and practice. Hence there is a need to discuss and streamline the process that helps to infuse the culture of human values and ethics in the students of Professional courses.</i></p> <p>Objectives of the Value-added course</p> <ol style="list-style-type: none"> a. To help the students appreciate the essential complementarity between "VALUES" and "SKILLS" to ensure sustained happiness and prosperity which are the core aspirations of all human beings. b. To facilitate the development of a Holistic perspective among students towards life, profession and happiness, based on a correct understanding of the Human reality and the rest of existence. Such a holistic perspective forms the basis of Value based living in a natural way. c. To highlight plausible implications of such a Holistic understanding in terms of ethical human conduct, trustful and mutually satisfying human behavior and mutually enriching interaction with Nature.
