INSTITUTE OF PHARMACEUTICAL EDUCATION AND RESEARCH
Borgaon (Meghe), Wardha (M.S.)

Best Practices

2022-23

Best Practice 1:

1. Title of the practice:

Initiative for environment awareness and sustainability at IPER

2. Goals:

- a. To provide environmental literacy to motivate students, teachers and supporting staff.
- b. To Introduce students to nature so they can learn to develop sensitivity, awareness and respect for the environment. .
- c. To acquire a set of principles for preserving the environment.
- d. To give people the chance to actively participate in environmental decision-making at all levels.

3. The Context:

The current global climate problem forces the institution to view environmental consciousness as its top priority. It also requires the institution to create high criteria for environmental friendliness and to recognise and commend practises that continue to organise and work at the forefront of environmental innovation. Through environmental policy advocacy, promoting environmental awareness, and encouraging local participation in conservation efforts to lessen the threat, the college believes it is its primary duty to make society aware of the deteriorating environmental parameters and to prod them to adopt eco-friendly ways.

4. The Practice:

The following actions have been performed on campus to support the worthy goals of environmental awareness and sustainability:

1. The college has introduced various energy saving methods. LED lighting is used in many places in the campus. A solar energy system is installed in the campus with a

real capacity of 9 kW. Sensor based energy saving is installed in the institute. This is a very encouraging step towards access to renewable, inexhaustible and clean energy sources.

2. The Institute's NSS Division organized a quiz competition to coincide with World Environment Day on 5 June 2022. 90 students participated in the quiz competition.
3. The institute organized a tree planting campaign on 01 October 2022, which was attended by 45 students on the college ground.
4. For Earth Day (April 22, 2023), the Institute has organized a tree planting program on April 24, 2023. Since April 22nd and 23rd are holidays, the tree planting ceremony was held on April 24th, 2023.

5. Evidence of success:

- a. Use of renewable and sustainable energy sources such as LED lamps on campus.
- b. Generating green power through the use of solar modules enhances the use of conventional power generation.
- c. Encourage students and teachers to save electricity, save paper, save money

6. Problems encountered and resources required:

Sometimes it happens that it is difficult to convince students and staff, that degradable substances exist. Environmental practices and awareness program can help break through the hurdles.

Best Practice 2:

1. Title of the practice:

Alumni contribution for student's development

2. Goals:

- a. To leverage the expertise of our graduates in various fields in order to update and improve technical and competency-based characteristics of current students.
- b. To Improve the overall contribution of alumni to student and college development

3. The Context:

The majority of institutions cherish their alumni, it goes without saying. A effective alumni engagement programme may help a higher education institution with a range of purposes, whether they are to support fundraising objectives, enhance athletic income, or encourage new student enrolment.

4. The Practice:

The following initiatives have been taken in the campus for alumni contribution in students development:-

- Updated the alumni directory on the college website.
- Requesting each alumnus to express their opinions and contributions; and asking them to upload recorded talks, lectures, videos, etc.
- On December 3, 2022, Mr. Prashant Muley, a former student of the institution, gave non-teaching personnel detailed instruction on laboratory best practises.
- On 13th March 2023. Mock interviews for B.Pharm and M.Pharm final students were done by our alumni Mr. Balu, Mr. Sahebrao Chaudhari, the business officer for Zydus Healthcare in Wardha, and Mr. Pratik Gajanrao Deshmukh, the area sales manager for Sun Pharma in Nagpur.
- On March 13, 2023, two of our alumni—Mr. Pratik Gajananrao Deshmukh, the area sales manager for Sun Pharma in Nagpur, and Mr. Balu Sahebrao Chaudhari, the

business officer for Zydus Healthcare in Wardha gave guest lectures on the subject of "job selection and interview preparation."

- On March 17, 2023, the institution celebrated its annual day with two of our alumni as honorary guests-Mr. Avinash Kondawar, Senior Manager-Clinical Trial Management, ICON clinical research, Bangalore, and Mr. Nitin Bhimte, Head, Intellectual Property Rights, Alembic Pharmaceuticals Ltd., Hyderabad. In this instance, they have advised the students on potential future careers.
- On Saturday, February 18, 2023, Mr. Prashant M. Katariya, Senior Manager, Zydus Life Sciences Ltd., a well-known alumni of the institution, gave a webinar on "Patent linkage balance between IPR and regulatory Approval."

5. Evidence of success:

- Training sessions on laboratory best practices have benefited non-teaching staff members.
- Alumni's motivation and training helped students succeed in their job interviews.
- Students' understanding of patents and their applications has improved.
- Improving both the quality and quantity of alumni interaction on social media.

6. Problems encountered and resources required:

- Financial resources are constantly needed to upgrade infrastructure and technology requirements, organize training sessions for specialized technical fields, and promote entrepreneurship and skill development.
