## TREE PLANTATION

Trees beautify our surroundings, produce oxygen, absorb pollutants, sequester greenhouse gases, regulate temperature and prevent soil erosion, besides acting as wind barriers. They are grown for their aesthetic value in landscapes and or economic importance. The Indian tree flora diversity ranks 10th in the world and comprises of nearly 2000 species belonging to about 800 genera and 150 families of flowering plants, which includes majority of the cultivated and exotic species. With the increase in population, rapid expansion of area under food and commercial crops, deforestation, extension of urban area, establishment of industries in rural areas and other factors, there is considerable depletion of genetic wealth, many of them being in the verge of extinction.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education and Wardha organized “Tree Plantation” programme on 28th July 2021 in the college premises. It was attended by Dr. R. O. Ganjiwale, Principal; Dr. N. A. Karande, NSS Programme Coordinator; and NSS student volunteers. Under the Guidance of Asst. Prof. Dr. N. A. Karande, NSS Program Coordinator, 107 students participated in Tree Plantation.

## WORLD PHARMACIST DAY

Pharmacist Day, 25th September, that is being observed throughout the nation and the world. This year we observed this with the theme 'Pharmacy: Always Trusted for Your Health'. For decades Pharmacy profession has remained as a trusted profession for the healthcare needs of its people and the society.

The Pandemic brought to the fore the many ways in which the pharmacists across the globe responded as 'Frontline Warriors' and ensured that the access to medicine's was not denied and took multiple responsibilities in supporting the governments, healthcare professionals and the patients and their caregivers. This has only reiterated the 'Trust' that people have in pharmacists. The years ahead will be more demanding on the pharmacist's role in strengthening the healthcare system across the globe. Armed with new knowledge and skills they will be expected to respond to task shifting and collaborative practices that may be required. Pharmacists should emerge as not only as the most reliable experts on medicines but also as trusted health professionals who are always ready to 'Provide care to those who need the most'.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education and Wardha organized World Pharmacist day program in association with Wardha Chemist and Druggist Association and Food and Drug administration Wardha. On the occasion Shri. Mahendraji Gadekar, Joint Commissioner FDA Nagpur; Hon. P. M. Ballal, Asst. Commission FDA Nagpur and Bhandara and Shri. Satishji Chavhan was present. ## FOOD-PLANET-HEALTH

Food systems have the potential to nurture human health and support environmental sustainability, however our current trajectories threaten both. The EAT–Lancet Commission addresses the need to feed a growing global population a healthy diet while also defining sustainable food systems that will minimise damage to our planet.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education Wardha organized Webinar on “Food-Planet-Health” in association with Vegan Outreach dated on 11.10.2021. The Vegan Outreach is an organization, initiated mission compassion 2021- a virtual tour to reach top University’s and Youth group of Nagpur and spread awareness about the impact of food on health. During this tour speaker Asha Gupta interacted with students about the health benefits of a plant based diet and how compassionate food choice care save the planet and animals. The 96 students participated in the program.

## VOTER REGISTRATION CAMP

In electoral systems, voter registration (or enrolment) is the requirement that a person otherwise eligible to vote must register (or enrol) on an electoral roll, which is usually a prerequisite for being entitled or permitted to vote. The rules governing registration vary between jurisdictions. In most jurisdictions, voting and registration is optional, while in others (such as in Australia) registration and voting are compulsory for citizens of voting age.

The Government of India conducts a revision of the voters list every 5 years. An additional summary revision is conducted every year. Apart from this, citizens can request their inclusion in the voters list by applying through Form 6. If the application is valid, the applicant's name will get included in the list. At 18 years old, completed person should be eligible for voter list (for Indian citizens only).

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education Wardha organized Voter Registration Camp dated on 01.12.2021, at 11.00 am. Mr. S. R. Asole and Ms. N. R. Mahajan Co-ordinate the activity. The 36 students participated in the activity.

# SWACHATA ABHIYAN

## [THEME: BANNED PLASTIC]

Being home to the world's second-largest population, it is needless to say that cleanliness is deeply interlinked with the nation's tourism and global interests. For developing tourism and enhancing the nation's GDP, it is important and vital to keep high standards of hygiene and cleanliness which will transform the global perception towards our nation as a whole. The importance of Swachh Bharat Abhiyan was linked to the economy and health of the country by the prime minister by providing a source of employment to many people and reducing health costs to a large extent.

Since the late 20th century, we have depended on plastic as an affordable, versatile and durable material. However, since the majority of plastic materials take centuries to degrade, all of the plastic that has been sent to landfills in the UK still exists and yet we're still producing and consuming more of it. That plastic has to go somewhere, and it's frequently either dumped carelessly on land or in rivers in developing countries, before ending up in the ocean, where it threatens marine life. The fact is, we simply can't cope with the amount of plastic on our planet nor the amount that continues to be produced. For this reason, our attitudes and behaviours towards plastic must change to ensure a safe and healthy future for our planet.

The National Service Scheme (NSS) Unit of Institute of Pharmaceutical Education Wardha organized "Swachata Abhiyan" in nearby village Borgaon(Meghe), Wardha dated on 14<sup>th</sup> March 2022 at 10.30 am in association with Grampanchayat Borgaon(Meghe), Wardha. The theme for Swachata Abhiyan was "Banned Plastic" and Dr. N. A. Karande Co-ordinate the activity. The 240 students participated in the activity.
