BLOOD DONATION CAMP

Human blood is an essential element of human life with no substitute. Voluntary blood donors are the cornerstone of a safe and adequate supply of blood and blood products. The safest blood donors are voluntary, non-remunerated blood donors from low-risk populations. Blood donors in India, as across the globe, are of three types; voluntary donors, replacement donors and professional donors. Most donations are as a result of replacement donations, which are non-remunerated donations, provided by the relatives of patients. The success of blood donation camp depends on people who organize the camp and blood bank team.

The National Service Scheme (NSS) unit of Institute of Pharmaceutical Education and Research, Borgaon(Meghe), Wardha organized blood donation and blood group detection camp on 1st Jan, 2019 at 10.30 am on account of New Year celebration. A team of expert from Jawaharlal Nehru Medical College, Sawangi (Meghe), Wardha visited to institute. Student volunteers of NSS and the other students and teachers actively participate in this program. 50 students of the institute donate blood on the occasion.

आयपर मध्ये ५० विद्यार्थ्यांचे रक्तदान

रक्तदान करताना महाविद्यालयाती विद्यार्थी व डॉक्टरांची चमू.
लोकमत न्यूज नेटवर्क
